

1. I can for lesson: _____
2. What are you encouraged by from this lesson today? What went well?
3. Formative assessment you used for lesson:
4. Circle on the chart below what your target would be based on the number of kids in class today. Then, note how close you came to that target.*

# of kids	75-80% mastery is...	How many kids mastered today's formative assessment?
9	7 kids	
10-11	8 kids	
12	9 kids	
13-14	10 kids	
15	11 kids	
16	12 kids	
17-18	13 kids	
19	14 kids	
20	15 kids	
21-22	16 kids	

List the names of the kids you need to follow up with that still aren't mastering this concept:

What are your next steps with these students?

- * Remember, the threshold of 80% mastery of every lesson is only met by someone like Superman; it's an overall goal... not a daily expectation. A runner doesn't get their best time every race; teachers don't reach 80% of their students in every lesson they teach. The goal of using this form is to help everyone engage in the kind of reflective practice that fosters individual growth. To Study what we do, to Act on our reflections and improve.
